Event Styling

Our BBQ experiences include everything you need for your special event;

Exclusive venue hire to the private sunken garden, two course BBQ menu, linen for buffet stations, clothed occasional tables and chairs, clothed poseur tables, crockery, cutlery, staffing, glassware and a cash bar set up.

If your event has to be moved inside we will include a PA system for background music, up-lighting to the Nave, Baldacchino and South Chapel.

However, we know that you'll want to make your event as distinctive and memorable as possible. So why not create your own combination of glassware and linen to enhance your event further.

We have a whole host of "tricks" and options that can make a big impact with relatively modest cost from bespoke linens, adding an extra course or creating floral table decorations – all optional but can add extra finesse to an event where it's important. We are happy to suggest options of what can work well from our experience. The opportunities are endless; once we've had a chat we can create the perfect combination for your event that fits in not only with your budget but your own style and creativity.
